Of the Commission's rules)	

**Compliance Report Regarding Petition for Waiver of Section 20.19(C)(2)(i) of the
Commission's Rules for Iowa Wireless Services, LLC dba i wireless and related
licensees**

On September 15, 2005, Iowa Wireless Services, LLC and the related licensees listed in Attachment A hereafter referred to as "i wireless", requested a waiver of the requirement that i wireless include in its handset offering at least two handset models per air interface that meet a U3 or higher interference rating. i wireless requested the waiver until such time as hearing aid compatible (HAC) handsets were commercially available from the manufacturers.

i wireless now has two compliant HAC handsets, the Motorola V220 and the Motorola RAZR V3. The Motorola RAZR V3 was available to our customers as of August 29, 2005. The Motorola V220 was available as of October 4, 2004.

Initially the HAC compliant handsets did not have the required labeling. As of December 7, 2005 the HAC compliant handsets were properly labeled.

i wireless is now in full compliance with Section 20.19(C)(2)(i)Commissions rules.

Respectfully submitted,

By: Steven T. Schuler
